

Springfield, Mo
United States
Date: May 15, 2022

CEC and Audio Union are pleased to announce Audio Union of Springfield Missouri United States, is now the factory authorized distributor for Central, North, South America and surrounding Islands. Audio Union provides sales and service of CEC products.

In order to maintain the high performance standard expected from CEC products some engineering changes are being made to the power supplies of all CEC products. The new power supplies are now optimized for each specific region: Japan, America's, and Europe. These changes are being implemented starting this month, April 2022.

CEC is pleased to announce the new DA SL dac is now available for order through Audio Union. The DA SL is a dac specially designed to use the proprietary SUPERLINK connection for the connecting a CEC Transport with SUPERLINK to a dac. SUPERLINK is on current production models TL2N, TL0 3.0, DA0 3.0, and the new DA SL. Other models support with SUPERLINK are CEC TL1N, TL3N, and with D-SUB-9 for CEC TL2 and TL51 series transports.
